OBJECTIVE

Backend Developer with 2+ years of experience building scalable REST APIs, marketplace integrations, analytics dashboards, and AI-powered backend services using Python, FastAPI, Flask, and Django. Experienced in PostgreSQL, MongoDB, AWS, authentication, API design, AI workflows, and production deployment.

EDUCATION

United College of Engineering Management, Allahabad

2020 – 2024

Bachelor of Technology in Computer Science

CGPA: 7.1 / 10

EXPERIENCE

Backend Developer

March 2025 – Present

Skin Elements

Gurugram, Haryana

- Built and scaled backend services for an AI-powered financial intelligence platform, centralizing revenue, advertising, inventory, expenses, cash flow, purchase orders, and marketplace analytics.
- Designed and developed 20+ REST APIs for PL reporting, Amazon settlements, profitability analysis, inventory forecasting, dispatch planning, KPI tracking, and operational reporting.
- Integrated Amazon SP-API and Shopify APIs to automate synchronization of orders, inventory, pricing, settlements, and marketplace performance data, improving reliability through OAuth management, rate-limit handling, retries, and exponential backoff.
- Built profitability and inventory forecasting solutions that transformed marketplace and financial data into actionable insights, streamlining margin analysis, replenishment planning, and operational decision-making.
- Migrated production databases from SQLite to PostgreSQL on AWS RDS, optimized query performance, implemented RBAC and OTP-based authentication, and deployed scalable backend services on AWS EC2.

API Developer

July 2024 – March 2025

Seven Square Technosoft

Ahmedabad, Gujarat

- Developed FastAPI services powering AI-driven content workflows, including audio/video transcription, PDF generation, and media processing.
- LiveKit Server and Wav2Lip to deliver real-time lip-sync streaming and AI-powered video generation features.
- Scaled GPU-based processing on RunPod Cloud for efficient transcription and rendering workloads.
- Improved platform reliability through API testing, deployment support, and technical documentation.

SKILLS

Languages: Python, Java, SQL, JavaScript, TypeScript, .NET

Backend: FastAPI, Flask, Django, Django REST Framework, REST APIs, API Design

Databases: PostgreSQL, AWS RDS, MongoDB Atlas, SQLite

Cloud/Storage: AWS EC2, AWS RDS, AWS Amplify, Render, Vercel, Supabase Storage, RunPod Cloud

AI/NLP: OpenAI TTS, Transformers, Resume Parsing, Text Summarization, AI Insights, Recommendation Systems

Libraries: NumPy, Pandas, Scikit-learn, Transformers, Requests, BeautifulSoup, Pydantic, SQLAlchemy

Tools: Docker, Git, Postman, Swagger, Redis, Celery, Amazon SP-API, Shopify API

Concepts: Data Structures, Algorithms, OOP, JWT, RBAC, Rate Limiting, Database Indexing

PROJECTS

EchoTale – PDF to Audiobook Platform

[Live Demo](#)

Built an AI-powered audiobook platform that allows users to upload PDF books, extract readable text, generate cover previews, and convert PDF content into audio parts using OpenAI Text-to-Speech.

Smarthire – AI Resume Screening Platform

[Live Demo](#)

Created an AI-powered hiring platform that generates structured job descriptions and evaluates candidates against role-specific requirements.

Generate Key Insights API – NLP Summarization Service

[GitHub](#)

Built an NLP-powered API service to summarize long-form text, extract key insights, and identify important information from large inputs.

Real-Time Movie Recommendation System

[GitHub](#)

Built a real-time movie recommendation backend using content-based filtering and collaborative recommendation signals.

PROBLEM SOLVING

- Solved algorithmic problems across Arrays, Strings, Hashing, Two Pointers, Sliding Window, Stack, Queue, Trees, Graphs, Heaps, Recursion, and Dynamic Programming.
- Practiced interview-focused problem solving on LeetCode with emphasis on medium-level patterns, edge cases, and optimized solutions.
- Strong understanding of time complexity, space complexity, OOP, operating system basics, networking basics, and database indexing concepts.
